Faculty of Economics and Business – Universitas Indonesia
(2008-2011)

Project Development Staff	2009-2010
As a member of project development department, I was tasked to design organization activities and annual project	
General Administration Manager	2010-2011
My duty was mainly to deal with day to day administration of the organization, including organizing database and issuing document. However since we work in a matrix structure, I was also involved on different part of the organization, including discussing and formulating the concepts and structure of the events organized within the current period	

ShARE is a student organization which focused on research and sharing and as a platform to share knowledge. ShARE is also both think tank and educational hub, the insights gained from knowledge creation at ShARE can be shared not only amongst the ShARE community, but can also offer corporate and social leaders a novel perspective in tackling pertinent economic and business issues. <http://share-share.org/>
(2009-2011)

Network Manager of Financial Studies	2010-2011
As a Network Manager of Finance Network, I am responsible for the training of junior member to research on financial issues, and to guide them on their research. In my term as network manager, we work on the the issue of the formation of OJK (Indonesian Financial Service Authority) and the issues of Entrepreneurship in Depok https://github.com/firhatnawfanh/IHP	

Social Work

Volunteer Teacher	Rumah Belajar "Ikhlas Bercahaya" BEM UI	2010
<p>Rumah Belajar is program of BEM (student body) - Universitas Indonesia which is aimed to give cram school for children of lower income family around and to provide for to those who had taken “Kejar-Paket” education a mentor for their “Kejar-Paket” test. I was a teacher for student on first year of high school, while also teaching other classes that was short on teacher</p>		
Coordinator of Teaching Material	MASTER "Masjid Terminal"	2010
<p>MASTER is a program of Department Pengabdian Masyarakat (Department of Social Service) of BEM Faculty of Economics – Universitas Indonesia which provide education to high school aged teenager from lower income family in collaboration with local NGO, which is Yayasan Bimbingan Insan Mandiri (YABIM) which is located near the Depok’s bus terminal.</p> <p>My duty was to made syllabus, teaching material, problem sets and the answer of the problem sets, however due to lack of teacher, I also perform teaching duty. The problem with the teaching activity was that the quality of the student was horrible, for example sizeable part of them who were in the last year of high school, had the mathematical capabilities of junior high school, some even worse, incapable to differentiate between multiplication and power. The solution was to give appropriate problem of the last year high school difficulty, then analyzing the problem. Therefore any difficulties encountered during problem set would be identified, and student left behind would be given a more thorough explanation.</p> <p>We also accompany select student chosen as recipient of coverage for the fee for university entrance test for select top rank student, on the site of the test as a moral support. As a result, this program has succeeded to deliver some of its student to enter Universitas Indonesia, a prestigious state university which for the child of lower income family perceived as impossible to reach.</p>
